

International conference

# Applied Statistics 2011

September 25 – 28, 2011  
Ribno (Bled), Slovenia

## Aims and scope

The conference, organized by Statistical Society of Slovenia and University of Ljubljana will bring together statisticians and other researchers working in diverse fields of statistics and data analysis. Submissions from all areas of statistics are appreciated. Cross-discipline and applied paper submissions are especially welcome.

## Invited speakers

- **Adrian Bowman** University of Glasgow, UK
- **Hans C. van Houwelingen** Leiden University Medical Center, NL
- **Niels Keiding** University of Copenhagen, DK

## Workshop: Statistics of compositional data

- **Gerald van den Boogaart** Technical University Freiberg, DE

## Topics

- Biostatistics
- Bioinformatics
- Data Collection
- Data Mining
- Design of experiments
- Econometrics
- Mathematical Statistics
- Measurement
- Modelling and Simulation
- Network Analysis
- Sampling Techniques
- Social Science Methodology
- Statistical Applications
- Statistics Education
- Other Areas of Statistics

## Important dates

|                        |         |
|------------------------|---------|
| Abstract submission    | June 1  |
| Decision of acceptance | June 15 |
| Registration           | July 1  |

## Conference address

Andrej Blejec, National Institute of Biology  
Večna pot 111, SI-1000 Ljubljana, Slovenija
